WAINWRIGHT, ALBERTA, WEDNESDAY, MARCH 1st, 1944

Price \$2.00 Per Year In Advance

Statutory Meeting of Wainwright Town Council

This is the official record of the proceedings of the Council of the Town of Wainwright at the first or statutory meeting on the 21st day of February, 1944.

The members of Council present at this meeting were Mayor Middlemass and Councillors Stafford, Robinson, Cork, Tory and Leggett. The declaration of the Returning Officer as to the members elected at the recent nomination meeting was read and the Secretary-Treasurer vouched that the newly-elected members had subscribed to the required declaration; when the newly elected members were permitted to assume their places at the council table.

The recorded proceedings of Council at its regular meeting of February 15th, 1944, were read and, on motion of Councillor Cork, were adopted and confirmed as written.

On motion of Councillor Cork, it was unanimously resolved that Council go into a committee of the whole, to strike the standing committees of council for the current year 1944.

Council then went into a committee of the whole with Mayor Middlemass presiding.

On rising, the Committee of the Whole, submitted the report hereto attached with the recommendations as to the constitution of the standing committees for the year, as follows:-

FINANCE - Councillors Robinson, Stafford and Cork.

PUBLIC WORKS - Tory, Robinson and Stafford.

FIRE, LIGHT & UTILITIES - Cork, Leggett and Robinson.

PROPERTY & ASSESSMENT - Stafford, Coleman and Tory.

PUBLIC HEALTH - Coleman, Cork and Leggett.

BY-LAWS, PARKS & CEMETERY - Leggett, Tory and Coleman.

POLICE - The Mayor and the various chairmen of the standing committees.

The Mayor to be ex-officio a member of all committees.

On motion of Councillor Robinson, the report of the Committee of the Whole was received and accepted, the standing committees to be constituted as therein recommended.

On motion of Councillor Cork, it was unanimously resolved that the regular meetings of council in the year A. D. 1944, be held in the council chamber of the Town of Wainwright at 8 o'clock p.m. on the first and third Tuesday of each and every month with the exceptions of the months of June, July and August of the said year, and that but one regular meeting be held in each of these excepted months and that on the first Tuesday of the particular month; the place and time of meeting to be that set out for other regular meetings of council.

On motion of Councillor Robinson, it was resolved that notice of account, No. 44-393-392, received from the Edmonton general hospital,

al, be filed, and the hospital advised that the Council accept no responsibility in this case as the party involved is not indigent.

On motion of Councillor Leggett, it was resolved that the Secretary be instructed to have the usual notice in respect to 1944 dog licenses, inserted in the next two issues of the Wainwright Star.

On motion of Councillor Robinson, it was resolved that a by-law be prepared amending by-law No. 209, by deleting the word "truck" where it appears in section "F" thereof.

On motion of Councillor Stafford it was resolved that By-Law, No. 354, be given its third reading at this meeting, and that it be assigned its title as in the original motion that it be finally passed and that the Mayor and Secretary-Treasurer be authorized and instructed to sign the said By-Law and to attach thereto the corporate seal of the Town of Wainwright.

By-Law number 354, was read for the third time and declared finally passed.

On motion, Council was regularly adjourned.

CARD OF THANKS

I wish to express my thanks to all my supporters who returned me at the head of the polls in the election of Councillor for Division No. 6 of the M.D. of Wainwright No. 392 on Saturday last.

DAVE RATTRAY, Sr.

CARD OF THANKS

We would like to express to our many friends our heartfelt thanks and appreciation for all the kindness and consideration shown us in the loss of our son and brother, Flying Officer Gordon Schlitt.

MR. and MRS. H.P. SCHLITT and IRIS.

Distribution of No. 4 Ration Book

Ration book No. 4 is to be distributed during the last week of March (Mar. 29-31), and it is hoped that the same volunteer workers who did such a splendid job last time (book No. 3) will carry on during the coming distribution.

The territory under the Local Ration Board (E-22, Wainwright) comprises distribution centers at Wainwright, Chauvin, Edgerton, Ribstone, Heath, Fabyan, Irma, Jarow and Kinsella, at which places (as advertised later) the new ration books will be issued upon applicants producing their No. 3 book.

Further information on this subject, and the names of those in charge at the several centers will be published shortly, and it is hoped that anyone able to spare time to assist will get in touch with these good folks at their nearest center in order to facilitate the work of distribution.

Can. Red Cross Needs 10,000,000

The Canadian Red Cross National appeal for \$10,000,000 opened on February 28th, when the people of Canada will be asked to contribute just as much as they possibly can to make this objective a reality.

Coming into the fifth year of a wide-spread war, with more Allied countries desperately in need of supplies and comforts of all kinds, the Canadian Red Cross is stepping up production in every department to meet requisitions as they come in.

This year there are more prisoners of war, \$5,500,000 must be spent on food parcels alone, with an additional \$1,000,000 for parcels for Allied Red Cross Societies.

Dried blood serum is growing in importance, with the advance of our armed forces, and \$750,000 will be required to keep this vital service functioning at top speed, as it must.

Hospital supplies and comforts for the Forces require \$3,000,000.

With a growing feeling that the war may be coming to a close, there is an even greater need for concentration on Red Cross supplies. The peoples of the occupied countries have been stripped of their possessions. They have literally nothing. With the ending of hostilities, Canadian Red Cross will be faced with an extension of her active war services.

Peacetime commitments have been kept up, with regard to nursing and first aid outpost hospitals and public health. To meet any eventually, Canadian Red Cross must stand prepared.

There has never been a time in the history of Canadian Red Cross when there was a greater need for the all-out support from loyal Canadians. Last year the objective was reached, and passed.

This year the need is greater. Canadian Red Cross is the living link between Canadians at home and kin overseas. Keep mercy on the march!

Government Lends

Builders \$60,000
EDMONTON—The insurance branch of the government has already advanced approximately \$60,000 to co-operative building associations. Premier E.C. Manning told the House Wednesday afternoon in reply to a question by J.C. Mahaffy (Ind.), Calgary.

One association had been formed and was in operation for more than a year, Mr. Manning replied, and another was being formed. The government insurance branch had lent approximately \$60,000 to the activities. Thirty-eight houses had been built.

BOARD OF TRADE

MONTHLY MEETING

The regular monthly DINNER MEETING is to be held in the Wainwright Hotel Cafe tonight (Wednesday) at SEVEN o'clock and everyone interested is requested to attend.

By Order.

Red Cross Drive Opened With Big Carnival Feature

Possibly one of the most colorful and successful events ever staged in Wainwright was the Red Cross Carnival, held on Tuesday evening last, in the rink.

The Carnival was planned and convened by Mrs. Geo. Clark and Mrs. Leland Baxter, who are in charge of the Red Cross Campaign in Wainwright. It was estimated that nearly 500 people were in attendance, in spite of the inopportune coldness displayed by the weather man.

The costumes were many and varied, those competing being mostly in the younger-age groups. The work of the teachers in helping costume these younger ones was much appreciated, as was the help of Mr. Meade in placing the contestants, of Mr. and Mrs. Cork in supplying the music, and of Mrs. Conroy, Miss Mabey and Mrs. Coutts in acting as judges.

The following were the prize-winners.

Under 14 years. Comic: Boys - Rodney Koch, as Babe Ruth; Girls - Gladys Tory and Pauline Carl, as Darkey Couple.

Fancy: Boys - Master O'Rourke as "The Devil himself"; Girls - Patsy Harden as "The Old Woman Who Lived in a Shoe".

Over 14 years. Best Costume: Boys - Bill Baxter as "Glamour Girl"; Girls - Misses P. Heffernan, L. Wright and F. McKenzie as "The Three Graces" - "Faith, Hope and Charity".

Following this part of the program the crowd crossed to the I. O. O. F. Hall, where an hour of undiluted hilarity was spent. Our genial auctioneer, Mr. Geo. Reynolds stimulated, challenged and wooed the bidders to record prices for candy, pies, cakes, etc. But the real highlight of the evening was the SLAVE AUCTION, where Mr. Reynolds truly waxed eloquent, and the "points" displayed by the versatile slaves themselves tickled the risibilities of the audience, and evoked interest, enthusiasm and applause as the bidding mounted higher and higher. The generosity of the pledges for these slaves augurs well for the Red Cross Drive, now off to such a good start.

Mr. Baxter read the list of slaves to be auctioned, given below with the names of their purchasers. "Aunt Jemima" McKenzie, sold to Mr. and Mrs. Washburn.

"Annie-belle" Clark, Baby-tender de Luxe, sold to Mr. and Mrs. A.S. McLellan.

"Tiny Tim" Miller, expert dog-washer, sold to Mr. and Mrs. Frank McLeod.

"Moon-Mullen" Smith, veteran sidewalk cleaner. Sold to Auctioneer Reynolds, (convinced by his own eloquence).

"Henri" La Tolmie, famous French Chef, sold to Vic Cowley (specialty angel food).

"Cabman" Conroy, with his pony express, sold to Mr. and Mrs. Geo. Clark.

If any of our readers missed this slave auction, it would be worth an extra donation to the Red Cross to get it described in detail by an eyewitness. It will be recounted for years to come in the humorous anecdotes of Wainwright. To all who contributed to its success and enjoyment - the slaves, the auctioneer the pledgers, the Oddfellows for the use of the hall, the Executive of the Red Cross express their sincere thanks.

Many took advantage of the interval before the Moccasin Dance to visit the Red Cross Booth, where Mrs. Graham and her helpers were prepared to refresh the inner man.

The Executive also thank the Town Council for the use of the rink and Mr. Wright for his work on it, Mrs. W. Bruner for screen advertising, and all who donated food or helped in any way to make the evening such an outstanding success.

And now, good citizens, let us get solidly behind the Red Cross Drive!

CARD OF THANKS

I wish to take this opportunity to thank all those electors who gave me their support in the election for Councillor in Division No. 5 of the Wainwright M.D. No. 392.

ELGIN KNOTT

School Holiday Periods July 16 to Sept. 30

School holidays in Alberta this summer will run from July 16 to Sept. 30, according to terms of a bill brought into the legislature Wednesday afternoon by Hon. Solon E. Low, minister of education. The bill amends the Operation of Schools (War) Act, introduced at the last session of the house, which set the summer holiday period from Aug. 1 to Oct. 9 for this year.

Because of week-end holidays, effect of the new legislation on the school vacation this year will mean schools will close Friday, July 14, and will not re-open until Monday, Oct. 2, providing an 11-week holiday period.

Mr. Low announced the change in the holiday period some time ago, after numerous requests had been made by organizations and persons interested. The holiday period was changed to help relieve the critical labor situation that existed on farms last summer, but has been the subject of much criticism since.

The holiday period in 1943 ran from the end of June to Oct. 12, the longest period ever known. Legislation which changed the summer holiday period last year also cut the Easter vacation period down to one day, Easter Monday. This change will still stand, "for the duration".

A second school bill, to amend the School Attendance Act, was also introduced Wednesday by Mr. Low. It requires that when a pupil reaches the age of 15 years during the June term, he must continue attending school until the end of that term. The present Act requires only the attendance of a pupil until he is 15 years of age.

Butter Ration Is Temporarily Cut

Canada's butter ration will be reduced temporarily. The Wartime Prices and Trade Board announces that the reduced ration is necessary because butter production during November, December and January was about 5,400,000 pounds less than during this period of the previous year.

The reduction will be made by postponing the valid dates of butter coupons. Coupon 54, will not become valid until March 23, and coupon 55 will become good on March 30. Normally coupons 54 and 55 would be due on March 16.

Until further notice, succeeding coupon will become good at intervals of one week.

A corresponding reduction is being made in butter quotas of hotel restaurants and other eating places.

An important factor in reducing production was the 1943-44 winter subsidy payments which diverted milk from butter production to cheese production.

Groceries For a Month

To buy one month's provisions for dining and troop train commissary cars of the Canadian National Railways operating through the Montreal district is a big job in terms of ordinary housekeeping.

Here are the quantities of some of the items required for an average 30-day period: Bread, 16,120 loaves of 1½ pounds each; 42,472 pounds of meat, 6,522 pounds fish, 7,500 pounds of fresh vegetables, 15,660 quarts of milk and cream, 3,000 pounds of butter, 1,000 pounds of cheese, 175 boxes of apples, 50 boxes of grapefruit, 18 boxes of lemons, 150 boxes of oranges, 12 dozen cucumbers, 1,200 bunches of celery hearts, 2,900 heads of lettuce, 550 bunches of parsley and 500 green peppers. Had enough?

Committees' Full Reports At Annual Municipal Meeting

Realising the impossibility of every ratepayer being present at the annual meeting of the M.D. of Wainwright recently, we are pleased to publish in full the reports from the Reeve and the several committees in order that all our readers may be fully informed on all matters pertaining to the work of the municipal council during the year 1943.

REEVE'S REPORT

Once again the wheels of time for rate-payers meetings has arrived.

What a different picture we have this year regarding the war. We have strong hopes that before we meet at another annual meeting, we may expect the final destruction of Nazi Tyranny. We hope to see established a lasting peace which will afford to all nations the means of dwelling in safety within their own boundaries and which will afford assurance that all men in all lands may live out their lives in freedom from fear and want.

After final victory, to ensure the enjoyment of the fruits and pleasures of a lasting peace, we must each be prepared to play our part no matter how small it may be and be ready to assume any responsibility which may confront us, just as we have accepted our share of the responsibility in the many phases of our war effort.

Your present Council realize that Municipal Officials are closer to the individual than are those of any other branch of Government and can and should, therefore, take a prominent part in any community enterprise that is for the public welfare and social improvement of the ratepayers of their district. They also realize that the success of our municipality is dependent upon each of us, in war time or in peace time, fulfilling the responsibilities of citizenship in a free country.

As we did last year we feel it is our duty to give you a report on the activities of your Council during the year just past.

At our March meeting several Committees of the Council were appointed to deal specifically with the various phases of our work, and while I named these all for you last year I do not think this is necessary this time as you will be hearing a report from each of these Committees.

During the year under review levies formerly made and collected by virtue of the Social Service, Municipal Districts, School and Hospital Acts, etc. were discontinued and an amalgamated tax was levied to provide for expenditures for ordinary municipal purposes, School and Hospital Requisitions and also Social Service taxes. In connection therewith the arrears as at December 31, 1942 pertaining to trust taxes were taken over by this Municipality, and all collections thereon during the current year having been considered as collections on account of the amalgamated taxes in accordance with the provisions of order-in-council No. 1697-43.

The above amalgamation of tax levies made it necessary for the Department of Municipal Affairs to draft, and have in use this year a different form of Financial Statement. This Statement is drawn more on the lines of Revenue and Expenditure instead of the former Cash Statement of Receipts and Payments. The Statement of Receipts and Payments tends to be misleading in that it must necessarily be true that the Municipal District disburses in the course of a year an amount approximately that which it collects from its taxpayers or borrows.

The average taxpayer finds it difficult to understand that certain receipts, such as relief charges, rapid, assets sold, costs collected and bank loans incurred are not actually revenue of the district. On the other hand it is just as difficult to grasp that payments on bank loans, on tax recovery costs, or purchase of equipment are not actual expenditures relating to the cost of operations in the year of payment.

Furthermore it is not usually realised that operating costs are affected by the increase or decrease in accounts payable and other

liabilities, or that the increase or decrease in the municipal cash balance does not necessarily indicate the excess of municipal revenues for the period.

As you will see from the statement our collections on taxes have been materially increased over 1942, in fact we collected on Current and Arrears 129.5% of the current levy, whereas in 1942 we only collected 93.9%. This increased collection has reflected favourably in our general financial condition, and due to this fact we were able to finance all of our various operations on loans approximating half the amount which was necessary in 1942.

While this increased collection has been very gratifying, we do not consider it altogether normal as we threshed 40 to 45% of our 1942 crop in the spring and summer of 1943. We have also harvested almost the complete crop of 1943, therefore, having for market almost a crop and one-half in one year. We have also had an increase in the price of grain and other farm products. For these reasons we feel that if we are to maintain the high standard of collections which we attained this year it will be necessary for the Council to adopt some more strenuous policy regarding collection of arrears of taxes in the future.

During our rate-payers meetings which were held last spring we received several recommendations some of the main ones were:

A Doctors Scheme for our whole area, Free Hospitalization, and having our office staff visit Chauvin, Edgerton, and Irma, for the purpose of collection of taxes and other municipal business.

Regarding the first mentioned we have found it impractical at present and we believe, that unless the Senior Government implement some Health Scheme ours will have to be shelved until the war is over and more Doctors are available, as we could not give the service in comparison to the cost involved at the present time.

In regard to the second mentioned we took up the matter of Free Hospitalization with the Department of Health and they advised that under present circumstances they were not approving any more Free Areas for the duration.

As for the third mentioned you are no doubt all aware that during the summer the staff visited Chauvin, Edgerton and Irma for the purpose of taking Wheat Acreage Reduction forms and in the fall they made three trips to each point for

Continued on Page Two

Novel Exhibit For Red Cross

A novel piece of window dressing is seen this week at Washburn's Hardware, this being a Canadian Red Cross Prisoner of War Box. Each of these contains 18 different articles all chosen for their nutritive value, and for only a \$2.50 donation during the big drive for funds this month you can be assured of one of these boxes being forwarded to a prisoner of war, and actually assist greatly in keeping him alive and as healthy as possible. Make your donation TODAY to cover at least one of these boxes, and as many as you can afford.

National Locomotives Need Big Coal Pile

Toronto, The large fleet of locomotives hauling urgent war traffic over the Canadian National Railways lines during the past twelve month period used seven-and-a-half million tons of coal to raise steam for that purpose. This is practically double the amount of coal required in a normal pre-war traffic year. A yard engine burns approximately three tons of coal during eight hours of service, while a 6200 type locomotive needed for heavy main line work in National System service consumes nine tons during a three-hour run.

WAINWRIGHT, WEDNESDAY, MARCH 1st, 1944

What Goes

Up Must

Come Down

Whatever goes up—must come down—that's sure as shootin'. Remember the last war? Well here is how things went—wheat up to \$3.25 a bushel in 1918—it sold in the early 30's as low as .27 not enough to pay for binder twine and feed for the horses.

Men coming back from overseas got it the worse of anyone, and some of them never recovered; the wounds that peace gave them were a hundred times more fatal than bullets and shells. They soaked them \$140.00 for a common every-day cow—which sold a couple of years later at \$28.00 a piece. Day-old grade calves cost \$15.00—two years later these same calves grown big and fat, sold for around \$18.00 on the hoof.

Hay was \$25.00 a ton, then dropped to \$3.75 and after 1920 ruin and bankruptcy were commonplace in every section in Canada, and returned soldiers—starved off the land—were selling pencils—can dy and soap from door to door—and dying on their feet from sheer discouragement and poverty, their children forced to quit school at 15 and 16 years of age to take hard, underpaid jobs, to keep the rest of the family from starvation.

That's what Canada is going to see doesn't happen again, but unless everyone keeps battling, it will come sure as guns.

Now to prevent it—well, here's your part in this nation-wide fight watch prices—observe ration regulations—buy only what you really need—for if inflation ever gets its ugly beak into us we'll go through all the hard times again—only they'll be harder this time—for there are more people to suffer more prices to tumble—There's more to lose.

We're riding high right now—big pay rolls—good wages—more jobs than people to fill them—but the pay-off is just around the next

corner—What are you doing to see that inflation doesn't get a headstart? What are you doing to hold the price ceiling line?—Ex change

\$ GREENSHIELDS \$

Mr. and Mrs. Ed Patterson and Lorna have returned after a vacation at the west coast.

Mr. and Mrs. Steenson and family accompanied by Miss W. Jones motored to Lloydminster for the week end.

A very successful dance was held in the Hall on Friday evening, sponsored by the Junior Red Cross, Miss Jones and the members wish to thank all who contributed to the success of the occasion, which resulted in a nice sum to assist the Red Cross Organization.

Mr. Tony Chertier and F. Leduc arrived from Edmonton on Saturday's train.

Mrs. R. Valleeau has returned from Ontario, where she has been vacationing.

The March meeting of the Green-shields War Service League will be held in the Hall on Wednesday evening, March 1st.

Mrs. Roy Sargeant and baby have returned home from the Wainwright Hospital.

Mrs. A. E. Kett left for Carvell Alta., to attend the funeral of her father Mr. McDonald.

Mr. John Patterson is vacationing in Salmon Arm, B.C.

Mr. Doug Roach is visiting at the Plater Home.

Mrs. L. Hill and Jimmy were visitors at the Pfleger home over the week end.

CONTINUATION OF

M D Wainwright No 392

(Continued from page 1)

a period of two days each time for the purpose of facilitating the payment of taxes by the rate-payers living in these districts. While the results of these visits by the staff were fair, we do not think the rate payers are taking as much advantage of them as we think they could, and we have discussed the possibility of discontinuing them if more interest is not shown.

At the October meeting of the Council we had a visit from Mr. William Hewlett Chief Collector for the Department of Municipal Affairs. We had a lengthy discussion regarding outstanding Seed Grain, Feed and Fodder Accounts for which the District is liable to the Government. We were told very plainly by Mr. Hewlett that if we became financially able we might be called upon by the Government to pay this account.

He also advised that we try to have these accounts settled by com promise. We have tried this policy and while a number of rate-payers have taken advantage of this settlement, a large number who owe these accounts have not and we as a Council suggest to them that they get in touch with our staff immediately, as we feel sure this will be to their advantage.

One of the major problems facing your Council today is land owned by the Municipal District which has come to us through tax recovery.

As you will see by our statement we have 322 parcels, this should be a source of quite a revenue to the District but I am sorry to say, as

yet, we have been unable to take full advantage of it, for due to our limited staff we have not been able to see to our sales and leases at the proper time. We would like to sell all of this land and get some land on the Tax Roll as revenue producing. It has been the policy of the Council to sell any lands which have come to us under the Tax Recovery Act for a fair selling price when an offer has been received which of course must receive the approval of the Minister of Municipal Affairs. Our policy for leases has been: for pasture purposes the amount of the current taxes in advance for a one year term the present leases to have preference if he wants the parcel the next year. For Cultivation Leases, one quarter of all crops grown for a term up to three years. The leases in all cases to be given the chance to bid supposing an offer is received to purchase any parcel under lease.

A question on which we have heard some criticism is the fact that we failed to cut all the weeds on the side of all the roads through out the District. Luckily we have had very little snow this winter and so our roads have stayed open. I would like to point out, however, that your Council tried to get this work done, but we were unable to find practically anyone willing to do it. We advertised through our minutes for three meetings last fall that anyone wishing to have the weeds cut on their roads should get in touch with their Councillor. So far as I am aware no Councillor was approached, therefore, we feel that if the weeds on your road were not cut you will have to take some of the responsibility.

During the year we appointed Doctors Wallace, Middlemass, Folkins and Hill as our Medical Health officers, and we appointed Mr. J. A. MacKenzie K.C. as our legal adviser. We also appointed seven Weed Inspectors. Regarding weed inspection as you know we must according to the Act appoint Weed Inspectors, but one Division of an Inspector is too much territory for to cover thoroughly at the proper time and for the money that we feel we can allocate for this purpose. It is our belief that the only way the weed situation can be remedied is for each and everyone of us to become weed Conscious and to try our best to control the weeds on the land for which we are responsible and to co-operate with the Weed Inspector to this end.

This brings me almost to the end of my report, I have tried to give you a short, outline of the Policy the Council has followed in transacting your business for the year. More detailed accounts will be given by the Chairmen of the various committees.

In closing this report I would like to pay a small tribute to our office staff, by giving you some information that you would otherwise receive. When the Department ordered the amalgamation of all tax levies, this made it necessary to set up a complete new bookkeeping system. This our staff did to the best of their ability and in the manner which they believed would best suit the rate-payer, the Council, the Auditor and the Department.

During the late summer our office was visited by two of the Departments' Inspectors for the purpose of investigating how this work had been done, and from that investigation the Department have circularized all Secretaries through out the Province advising them how to set up this new system and practically without exception their recommendations are taken from our office.

Furthermore the Hon. C. E. Gerhardt, Minister of Municipal Affairs at the Municipal Convention in Calgary last November, on several occasions advised delegates who were from areas that were being formed into large units to get in touch with the delegates from the Municipal District of Wainwright if they wished information on matters of organization or operation.

The last time it was my privilege to talk to the Minister he requested permission to use the Municipal District of Wainwright as an example on the floor of the Legislature as to how a large Municipal Unit could be organized and operated to the best advantage. It is my candid belief we could not have attained this high opinion of the Department and the Minister without the diligent work and co-operation of a very efficient staff.

Now Mr. Chairman, Ladies and Gentlemen, before I close I would ask you to bear with me for a few minutes longer.

I wish to point out to you that this is not a council meeting. This is a meeting of rate-payers of this district to discuss Municipal Affairs. Your Council is here to account to you as to how they have transacted business during 1943.

They have faithfully and honestly transacted the affairs of this Municipal District to the very best of their ability. While they may

have committed some mistakes, no doubt, whenever such has been brought to their attention they have tried to rectify the same.

They have no apologies to make. They will endeavour to answer any question you may care to ask them, I hope to your entire satisfaction.

They also are here today to ask you for recommendations, constructive criticism, and suggestions expressing your wishes regarding the management of your municipal affairs for 1944.

While I can not promise you that all or any of your recommendations may be carried out I can assure you that they will all have very careful consideration and discussion, and wherever possible carried out subject of course at all times to the Approval of the Department of Municipal Affairs.

FINANCE COMMITTEE
It is again our pleasure to present to you the report of the Finance Committee for the Municipal District.

Due to the amalgamation of taxes which has just been referred to by our Reeve it was necessary for us to draft our estimates somewhat differently than in former years. All School, Hospital and Social Service Taxes had to be combined with the Municipal and all treated as one.

In order that our report may be grasped the more readily, we have decided to give you just approximate figures in totals alone. Then for all purposes for which the Municipal District is responsible we estimated we would need approximately \$185,000.00 and this we proposed to raise by collection of taxes, charges repaid and sundry other items of current revenue, which we estimated would amount to approximately \$189,000.00.

We proposed to raise this amount by levying the following mill rates:
1. For the areas of our District within the Wainwright School Division and Wainwright Hospital District within the Free Area a levy of 38 mills.

2. For the area of our District within the Wainwright School Division and the Wainwright Hospital District (not in the Free Area) a levy of 38 mills.

3. For the area of our District in the Wainwright School Division and not within any Hospital District 31 mills.

4. For the area of the District within the Provost School Division and the Provost Hospital District 31 mills.

5. For the area of our District within the Provost School Division and not within any Hospital District 28 mills.

The foregoing is a synopsis of our estimates. The following is a synopsis of our actual expenditures and receipts.

During the year we disbursed for all services rendered approximately \$193,000.00 our total receipts amounting to approximately \$252,000.00. This gave us a surplus of receipts over expenditures of approximately \$59,000.00. While

FARM FOR SALE

S.E. 1/4 16-45-5W.4; N.E. 1/4 45-5-W.4; and S.E. 1/4 44-5-W.4, containing 480 acres more or less.

TENDERS marked S.C. 40948 addressed to the "Clerk of the Court, Court House, Calgary" will be received up to twelve o'clock noon on Saturday the 18th day of March 1944, for the purchase of the above property.

Envelopes to be marked "Tenders".

Location: 3 miles from Green-shields, 3 miles from school. Soil: medium clay loam on clay subsoil.

Improvements: 140 acres under cultivation, three wires fencing, well.

TERMS: 5% of tender in cash or certified cheque to the Clerk with tender; 20% on acceptance of tender, balance in three equal payments in one, two and three years, interest 6% per annum or all cash at option of purchaser.

Offer on other terms to be considered. Subject to the approval of the Court.

Sale subject to taxes from 1st, January 1944.

No tenders necessarily accepted. All tenders subject to the approval of the Court.

In the event of non-acceptance of offer the amount tendered will be returned. In all other respects standing conditions of sale to apply.

For further particulars apply to H. D. Mann, K. C. 612 Grain Exchange Building, Calgary, Alberta. DATED at Calgary, Alberta, this 7th day of February, 1944. Approved

"J. H. CHARMAN"
Acting Clerk of the Court

"W. A. MACDONALD"
J. S. C.
(Seal)

our receipts have been good and the surplus mentioned is quite substantial. This amount is not great when we consider the requirements of our present larger Municipal District and the reasons for this year's abnormal receipts just referred to by our Reeve.

With reference to Tax Receipts while arrears received amounted to approximately \$62,000.00 yet a staggering total of approximately \$316,000.00 remains unpaid. So right here in the interests of every rate-payer may I take this opportunity to urge upon us that we do everything in our power to get these arrears of taxes cleaned up as soon as possible while conditions remain yet opportune and hereby hasten the day when the mill rate can be lessened substantially.

PUBLIC WORKS COMMITTEE

Again it is time for us to report to you on the Public Works of the District.

As I pointed out in my report last year one of our main objectives was to press for the Completion of Highway No. 14. We are pleased to report that this is now an accomplished fact. This work was completed during the past season by the Provincial Government and of course at no cost to the District.

While our Public Works program was not as extensive as that of last year, we were able to have constructed about 40 miles of road most of which was done by Contract.

We have endeavoured to continue our policy of Public Works along the lines first laid down by your Council in 1942, that is, to work towards an eventual net work of roads throughout the district that will best serve the most ratepayers. This year we received a Grant from the Provincial Government in the amount of \$10,000.00 and this helped us materially in financing

our road program. We have started in some areas to do some graveling on the roads which we constructed last year and we believe that while this may cost considerable at the time we believe it will be a great saving in maintenance later on.

This year we seemed to have considerable trouble in obtaining help for proper road maintenance; we think this is due largely to the man power shortage on the farms, and for this reason our Motor Graders were used more for maintenance and less for construction than was the case last year.

You will note by our Financial Statement that we have overspent our allocation for public works this year, some of this is accounted for by the fact that your Council felt it expedient while the Contract or was available to build the nine miles of road from the end of Highway No. 14 to the Village of Chauvin. At the time this was decided on we were lead to believe by some of the officials of the Department of Public Works that we would be able to get a supplementary Grant, but when we applied for this Grant later on we were refused, so the total expense had to be met by the District.

We intend to continue our policy of completing a good network of roads leading to and from the Iligh way, and our first objective will be to build and gravel the main roads leading into all shipping points.

In giving this report we do so hoping that if you have any recom-

mendations regarding our public work policy, please give them to us at this time.

AGRICULTURAL COMMITTEE

With the handicap the farmers faced at the end of 1943 the Council decided to appoint an Agricultural Committee to keep in closer touch if possible, with farming conditions. As reported to you a year ago, an attempt was made to get a census of agricultural conditions with the help of the Deputy Returning Officers. An estimate was made of crops unthreshed, men needed, the probabilities of stock increase or decrease and the debt situation, etc. The synopsis of this was widely advertised for the benefit of those interested.

This information was of particular value to Mr. Townley-Smith, the District Agriculturist, whose area of activity covers a large part of this Municipal unit. The Council has worked with Mr. Townley-Smith not only in his usual work but also in establishing a Victory Campaign Committee to further our war-effort from the agricultural standpoint. The Reeve was appointed chairman and H. E. Spencer, the deputy-chairman of said committee. Several meetings have been held in the Council Chamber and a number of sub-committees were appointed and meetings held throughout the country.

In the struggles for greater production in Great Britain the Govern-

SCOURS IN SMALL PIGS

Common scours, an ailment of suckling pigs, gives hog producers considerable trouble and may cause heavy losses in small pigs unless precautions are taken to prevent it. This ailment is most likely to affect winter and early spring-farrowed litters closely confined in dark, damp, and chilly buildings, says H. Wilson, Dominion Experimental Farm, Lacombe, Alberta. When nursing pigs become chilled, an attack of scours is likely to result. In some instances the udder of the sow becomes affected with mastitis or garget, resulting in milk being secreted that is unhealthy for pigs. It usually causes fatal scouring. Infection from germs which are commonly associated with filth is also responsible for digestive disturbances resulting in diarrhoea and other troubles.

However, over-feeding or sudden changes in the feed of the sow are probably the most important causes of pig scours. At the first sign of scours the sow's feed should be reduced one-half at least, and if she is receiving barley it should immediately be removed from her ration. A light, thin slop of shorts and lime-water makes the most satisfactory diet for the sow until the little pigs are better. It may be necessary to keep the sow on restricted rations for three or four days. Lime-water can be conveniently made by putting a half pound of quicklime into a pail of clean water, stirring it thoroughly while slaking is in progress and then allowing the lime to settle.

Removal of irritating substances from the bowels should be by the use of castor oil. Pigs that are less than one week old should be given a teaspoonful of castor oil, and those over a week old one tablespoonful. If the diarrhoea persists, small quantities of lime-water may be used to advantage. A tablespoonful administered to each little pig daily should be sufficient to alleviate the inflammation in the intestines.

The best treatment will be of little value unless the pigs are immediately removed to clean, dry quarters.

If swine dysentery has become established in a herd, the pigs showing signs of sickness should be placed at once in another pen

PREPARE FOR SEEDING EARLY

Preparation for seeding includes buying the seed, cleaning, treating it for disease, and putting the planting machinery in shape to do the necessary work without a hitch.

Perhaps the immediate necessity for care and early attention to these suggestions is more urgent this year than ever before. Machinery is aging and becoming more liable to breakdowns; spare parts are not always easily obtained, and following last year's unfavourable season, good seed is scarce.

Good seed has certain essential characteristics. The most important of these are good germinating power and growing ability, often summed up in the term viability, freedom from weeds and other crops, and purity and suitability of variety.

Good germination and freedom from impurities are assured when seed is purchased by grade, and purity of variety when registered seed is used.

If the seed is home grown or obtained from a neighbour, a germination test should be made. This can be done at home or a sample can be sent to the nearest seed laboratory for an official analysis.

Clean seed is very important. Weeds are prevalent enough already, so that every effort should be made to prevent the introduction of new ones. The market value of grain is lowered when seeds of other crop plants are found in it.

Suitability of variety is essential. Only varieties that are suited to local conditions should be used. For instance in a district having a short season, the use of anything but an early maturing variety spells failure from the start, or again in a district where rust is common, the use of a resistant variety is imperative.

All seed should be treated for disease. Treatment with the new improved mercuric compounds can be carried out considerably ahead of seed time. This saves time when the rush of Spring work commences.

All these operations should be done as soon as possible to avoid delay and disappointment when it is seeding time in the Spring.

World of Wheat

H. G. L. Strange,
Director, Research Department,
Searle Grain Company, Ltd.

The Wheat Surplus Is Disappearing

A few years ago many were considerably alarmed about the Canadian

separate from the healthy ones. When any of the healthy group, sicken, they should be removed.

dian and World wheat surplus. Today that wheat surplus is disappearing to the extent that the United States has become quite alarmed about it. They are bonusing their farmers to increase wheat acreage, they are importing materials from foreign countries that will take the place of wheat, and they have planned to import no less than 175 million bushels of wheat from Canada during this current year.

On Aug. 1st, 1943, Canada had on hand in elevators and on farms, 601 million bushels. By Aug. 1st 1944 I estimate that Canada will have on hand in elevators and on farms not much more than 400 million bushels, and that the wheat surplus held by farmers on their farms will be almost down to normal.

What a Godsend this large Canadian surplus of wheat has been to the war effort of the United Nations, and how fortunate it is for us all that we refused to listen to that International Wheat Committee and others who some years ago tried to tell us that we should artificially cut down our wheat surplus.

This all proves the truth of the age-long belief ever widely held throughout the world, that it is a wrong thing to destroy, or to curtail the production of, essential foodstuffs.

Items Of Interest In

The World Of Foodstuffs

The U.S.A. intends to purchase 175 million bushels of Canadian wheat during 1944 if transportation facilities are available. Broomhall reports that warmer weather is needed for the Argentine corn crop if large yields are to be obtained.

Canadian hog marketings amounted to the record figure of 7,147,546 in 1943. Marketings were 14.6% greater than in 1942 and 120% greater than in 1938. In the U.S.A. western winter wheat belt the

crop-outlook has improved materially following the recent general precipitation. Exports of wheat and flour from the southern hemisphere (Australia and Argentina) are likely to increase considerably this year, according to Broomhall.

Do You know

The best plan is no better than the others unless there are better men behind it.

Desire, not intelligence, rules character. It is far harder to want the right thing than just to know what it is.

A soldier doesn't stand a chance without a bayonet. You can buy him the best with 18 War Savings Stamps. Do it now!

Hints for the Household

"Fighter first class on the home front!" That's the name we'd like to give to the man or woman who punches the time clock on the dot every day and walks briskly into the office or factory, or gets out the tractor or the washing-machine and starts work with energy and to spare for a hard day ahead.

"U.S. needs us strong," is more than a slogan. It's a statement of a vital need. Your health and mine will play an important part in winning the war. Keeping well is the home front soldier's way of keeping fit.

Rules for Keeping Fit

Right food, sufficient rest, some exercise outdoors every day so that the body gets oxygen, cleanliness of body including proper elimination - these factors are most important in keeping well. Make sure you are getting them. They will do much to keep you fit.

At this season when colds and flu are prevalent, it is especially important to see that the body is rested, is kept at the right temperature, has the right food and maintains good elimination.

Elimination Is Important

In connection with the last suggestion, a simple home remedy that every kitchen should be able to supply. Faithfully followed the year around, the habit of taking this drink may save you days at work and save the time of a busy doctor, who is thankful that you are not another patient.

Lemon and water is a natural mild laxative, adequate in providing all the regulation most people need. When this drink is taken every day, harsh laxatives become unnecessary. In drinking lemon and water, you know that you are taking - not a medicine - but a healthful food. Lemons are in group 2 of the Basic 7 food groups which Government authorities recommend that we eat daily.

Prevent Colds If Possible

Besides aiding elimination, lemons aid digestion, supply important vitamins and build body resistance. This fruit is one of the richest sources of vitamin C, which mitigates fatigue and helps the body resist colds and infections.

If you are taking a daily glass of lemon juice and water, you are building resistance that makes you less likely to catch cold or flu. Should one of these health saboteurs sneak up on you, however, you can call up reinforcements in the form of an extra dosing with lemon and water to help break up the condition.

At the first symptom of "sniffles" ringing ears, aching head and muscular fatigue - see that the kitchen has a supply of at least a dozen lemons.

On the first day, drink a glass of lemon and water every 2 to 3 hours. Some persons like to add ½ teaspoon baking soda (known also as bicarbonate of soda) to each glass, drinking the mixture as foaming quills. Since this drink is taken at once, the soda does not appreciably reduce the vitamin C furnished by the lemon juice.

If you are going to bed, the drink may be made very hot. This will induce perspiration. Be sure not to get chilled at this time. If you are away from home, a soda fountain can mix lemon and water or lemon, water and soda drink for you.

While your cold lasts, continue with the lemon and water, adding soda if liked, and taking three or four times a day.

Other rules to follow are:

1. Keep warm, avoid further chill.
2. Eat lightly. Take plenty of liquids especially citrus juices.
3. Get plenty of rest; overcome fatigue; build resistance.
4. Keep elimination regular.
5. Alkalinize your system.

In case of serious illness a physician should be called.

Percolated Decaffeinated Coffee

Use one rounding tablespoon all-purpose grind decaffeinated coffee for each cup (½ pint) of cold water. Pour cold water into pot of percolator. Set percolator basket in pot and put coffee in it. Cover. Let percolate slowly and gently 15 to 20 minutes, or longer than ordinary coffee to obtain the rich coffee flavor.

Dessert Doughnuts

- 2 cups sifted flour
- 2 teaspoons double-acting baking powder
- ¼ teaspoon salt
- ½ teaspoon nutmeg
- ½ cup sugar
- 1 egg, well beaten
- ½ teaspoon lemon extract
- 1 tablespoon melted butter or other shortening
- ½ cup milk

Sift flour once, measure, add baking powder, salt, and nutmeg, and sift together three times. Add sugar to egg beating thoroughly; then lemon extract and shortening. Add flour, alternately with milk, mixing after each addition until smooth. Knead lightly on lightly floured board. Roll 1½ inch thick. Cut with floured 1½ inch doughnut cutter. Fry in deep fat (355 deg F.) until golden brown, turning frequently. Drain on unglazed paper. Sugar if desired.

Hot Lemonade

- 4 tablespoons lemon juice
 - 1½ tablespoons sugar
 - Boiling water
- Measure lemon juice and sugar into cup and fill to the 1 cup mark with boiling water. Pour over ice immediately. This is an excellent dessert either hot or cold. Serves 8.

Knowledge without courage might as well creep back between the cover of its book.

We think the other fellow has more luck than we do. It may be that he has more pluck.

Take thought before you take sides. And take account of your hates and fears before you make up your mind.

Confidence must be hard won. Easy confidence, like easy money, is easily lost.

Beauty for YOU

The Secrets of Good Looks by **Barbara Lynn**

Why Grow Old-Looking

Every woman dreads the thought of "looking old." Happily, most of us can literally take years off our appearance by paying a little more attention to certain vital points that I deal with this week.

EYES. Bright, sparkling eyes are attractive. To keep yours clear and shining, bathe them with eye lotion regularly, and at night smooth the skin around them with Three-Purpose cream. Avoid undue eye-strain.

MOUTH. Avoid pouting. Lines around the mouth sometimes arise from distorted facial habits. Apply a touch of cream daily.

FOREHEAD. Scowling and frowning quickly weave aging lines. Check on your eyesight, too. Curb nervous habits such as unnecessary eyebrow-raising. When massaging with cream, use a firm pressure - up and out.

NECK AND CHIN. A double chin adds years and years to our age! Slumping might be responsible, so keep shoulders down, head high and chin in. Try vigorous slapping with back of hand or pad of cotton wool soaked in astringent. Use a bleach occasionally.

HANDS. To keep hands smooth and white, apply hand lotion often. Wash only in lukewarm water; never hot, and use soothing palmolive soap which helps beautify the skin. Rinse in cold water.

FEET. An elastic walk shows youthfulness. Wear shoes that are large enough.

BUST. Watch your posture; don't slump or slouch.

Write to me for my Beauty Care booklet which will help enormously. Send five one-cent stamps to: Miss Barbara Lynn, Box 75, Station B., Montreal, Quebec.

HEALTH

A HEALTH SERVICE OF THE CANADIAN MEDICAL ASSOCIATION AND LIFE INSURANCE COMPANIES IN CANADA

Canada Approved Bread Lacks Sufficient Riboflavin

TORONTO. In a feeding experiment on white rats, in which the bread given the animals was the only source of B vitamins, it was found that "Canada Approved" white bread was more valuable than ordinary white bread and that whole wheat bread was markedly superior to either of the two types.

A report of the experiment has been published in the Canadian Medical Association Journal by Alma T. Owens, B.Sc.H.E., and E.W. McHenry, M.A., Ph.D., F.R.S.C., of the School of Hygiene, University of Toronto.

The scientists used 16 rats for each type of bread, and the bread was purchased retail from a delivery truck of a large Toronto bakery, without the knowledge of the bakery. The rats, of the young, albino variety, were also fed protein fat, and carbohydrates in a proportion fairly close to that found in human dietaries in Canada.

Significant differences in the weights of the three groups of rats were noted on the 21st day of the experiment. It was concluded that the whole wheat bread supplied four important vitamins in sufficient quantities. "Canada Approved" white bread furnishes nearly sufficient quantities of three vitamins but was deficient in one - riboflavin; whereas ordinary white bread was deficient in all four vitamins. The scientists acknowledged that there might be wide variations in the composition of bread, and said that similar experiments on a number of samples would be advantageous.

The experiment was helped by a grant from the Rockefeller Foundation's Division of Natural Sciences.

SAMPLE COPY ON REQUEST

Motorists!

Apply NOW for your New Gasoline Licenses and Ration Coupon Books

On March 31, the present gasoline licenses and ration coupon books will expire. After that date no gasoline will be sold except on the presentation of a 1944-45 ration book.

In his own interests, every vehicle owner is asked to apply at once for a new license and ration coupon book for each of his vehicles. Application forms must be completed in detail.

Commencing April 1, under the 1944-45 rationing plan, the operation of which will be basically the same as that now in effect, all non-commercial vehicle owners will again be allowed a basic "AA" gasoline license and ration coupon book, containing 40 units for a passenger car, or 16 for a motorcycle.

Similarly, owners of vehicles eligible for a "Special" category, who can prove their need, will be granted an extra vocational allowance, fixed in advance for the year ending March 31, 1945. In determining the extra allowance - which will be measured to individual needs - the previous category and mileage of the car will not necessarily be an important consideration.

The extra vocational coupons will again be issued in books labelled "Special", and each book will contain not more than 60 units. To permit constant review of the needs of each category applicant, only one "Special" book, or portion thereof, will be issued at a time. The Oil Controller also has the right to refuse any application for a "Special" category, or to suspend any ration coupon book for an infraction of the regulations.

The shortage of gasoline is still acute. Do not apply for a "Special" category unless your need is urgent.

Gasoline for commercial vehicles will again be rationed. To assure themselves sufficient gasoline to carry on normal business activities after March 31, operators of commercial vehicles are urged to complete at once and in detail the required application for each of their vehicles.

On and after April 1, service station attendants will not accept gasoline ration coupons unless the license plate number of the motor vehicle for which they were issued is written in ink on each coupon. Every motor vehicle must also display on its windshield a 1944-45 sticker indicating the category of the coupon book submitted at the time of the purchase.

If the owner of a motor vehicle sells, transfers or disposes of it in any way, it is his obligation to see that the gasoline license and ration coupon book for that vehicle is returned immediately to the nearest Regional Oil Control Office.

To obtain a gasoline license and ration coupon book, secure an application form at your nearest Post Office. Study the form and follow carefully the instructions contained therein.

When you receive your 1944-45 gasoline ration book, guard it carefully. Do not leave it in your car. If, because of your negligence, it is lost or stolen, it may not be replaced.

THE DEPARTMENT OF MUNITIONS AND SUPPLY
Honourable C. D. HOWE, Minister

CANADA IS SHORT OF GASOLINE - USE YOUR COUPONS SPARINGLY

"If it hadn't been for the RED CROSS we wouldn't be alive now!"

"It was the Red Cross parcels that gave us courage..."

"I don't know what we would have done without Red Cross parcels"

HERE is evidence that cannot be denied... unsolicited praise for Red Cross straight from the hearts of repatriated war prisoners, men who have been through it and know from first hand experience just what it is all about.

Thousands of their comrades are still in enemy hands. Help Red Cross bring each one of them back with the same wonderful story to tell, a story of Red Cross light in the very shadow of death.

Over 39% of the money you give is earmarked for prisoners of war. Give generously that this amount will swell to meet the growing need. What we've done is small to what we've yet to do!

EDGERTON

The 193rd War Savings Certificate Draw which took place in Darby's Drug Store on Saturday last was won by G.C. Welsh, No. 5 being the lucky number.

The Co-operative Store held their 21st Annual Meeting in Pawsey's Hall on Monday, Feb. 21st. A large number of people attended and a very interesting and enjoyable time was spent. Mr. Fitzpatrick, Supervisor of Credit Activities, was the Speaker. A good lunch was served and appreciated by all.

The rocks raffled by the men's Curling Club were won by Mr. A. E. Challenger.

Norman Miles and family motored to Edmonton on Thursday, accompanied by Mrs. George Sawyer. Mr. Ecklund left for Castor on the 22nd.

Maurice Byers received word from Wainwright on Friday of the birth of a son.

G.C. Welsh and Bob McKay motored to Lloydminster on Saturday to play with the Paradise Valley Hockey team. They played against Waseta, Marshall and South Lloydminster, winning all three games and coming home with the cup.

The lady curlers served lunches at the rink during the men's bonspiel and took in over \$100 which result was very gratifying to all who helped.

The Edgerton men's curling club wish to thank the undermentioned for bonspiel prizes as follows:

Grand Challenge, right — Co-operative (G. Kingston); 4 War Savings Certificates; T. L. Shaw, casseroles; H. H. Cooper, Blue Willow; L. W. Darby, candy dishes.

Grand Challenge, left — F. Mitchell, 4 silex; T. Eaton Co., salad forks; Alberta Dairy Pool, pipes; H. B. Co., ties.

Merchants Event, right — P. S. Pawsey, 4 gift sets; A. W. Montgomery, smokers stands; Lincoln Hotel, billfolds; E.C.C., casseroles.

Merchants Event, left — J. A. Charlesworth, 4 War Savings Certificates; E. Hallett, cake plates; Great West Dist., 6 gallons oil; Delivettes Ltd., pictures.

Grand Aggregate — Bob McKay, ton wildfire coal.

The cake raffle in conjunction with the dance which was held in Aspen school on February 18th, was won by Mrs. Bill Warnock. Proceeds going to the Red Cross.

HEATH

A railroad work gang have been busy building a new loading platform at Heath.

Miss Alice Hyslop was a week end guest at the home of Miss Blodwyn Jones.

Henry Potvin is home again having been discharged from the army because of a low medical category.

Mrs. Ed. Potvin has received word that her brother Jack Connouton has been returned from overseas because of ill-health.

Private F. Wilkinson spent a short leave with his parents here

Wainwright No 392

Continued From Page 2

ment made the fullest use of the farm movements in organizing systematically for greater production. Plans were definitely laid on what to produce and the best place to produce it, farmers were helped with financial aid and marketing with extraordinary beneficial results. This was only possible because the farmers were placed in control of their own industry and with great powers. The conditions were such that Prime Minister Churchill said if the farmers had not been organized the Government would have had to organize them before such results could be attained.

Here in Canada we have a lot of loosely knit organizations poorly supported by an individual membership in the educational movements. When the several organizations can merge into healthy, vibrant whole (as far as Alberta is concerned) and have direct representation on the Board of the Canadian Federation of Agriculture, we can expect to get worthwhile results.

Your Council is made up of farmers. It is our duty to levy and collect taxes from the population and disburse in the various services demanded. The problem is a difficult one if agriculture is depressed or is suffering from irregular and uncertain prices. The solution to this problem can be largely met by the farmers organizing in their own interests. Granted it will cost money, but it will be more costly if they do not make the effort.

PUBLIC WELFARE AND HEALTH

The problem of health is one in which your Council is vitally interested. It has been our aim to try and locate doctors at each urban centre and to develop a worthwhile health-insurance scheme to cover the Municipal Area to take care of both the curative and preventative health.

In the report submitted to you a year ago it was pointed out that we were unable to carry out the above plans owing to a shortage of doctors due to the war. Such is likely to be the case until after peace is made.

We have, however, drawn up a contract with two doctors in the Municipal area with the object of engaging their services on a definite basis. This scheme has been partly upset by the fact that Township 41, Range 4, 5, and 6 are being transferred to the administration of the Provost Larger Municipal District. The Council therefore decided to drop the proposed arrangement with Dr. Hill, as the fraction

last week.

A group of skaters enjoyed a good time at the Walker's rink on Saturday night.

Miss Jean Bouchier is a patient at the local hospital.

Paul Touchette has a very black eye after Saturday's hockey game at Heath. Watch the pucks, Paul!

in Division 2 is too small on which to work. They have, however, continued their arrangements with Dr. Folkens and a vote of the people in the East end of the Municipality will be taken to decide their final judgement on the contract offered.

In the meantime, some constructive work has been done. Besides the services rendered by the above mentioned doctors and those of Wainwright, the Council have co-operated with the School Division in immunizing all the children from scarlet fever, diphtheria, and small pox. Those of pre-school age the Department of Education decreed could not share on the immunizing. The Council, a body equally interested in better health conditions with the school, was therefore approached and their co-operation invited to meet the situation. The Council therefore did so by offering to pay 50% of the expense of the immunizing done within the area under their control. The larger part of the School Division being in common with that of the Municipal District. The cost to the Council was \$1270.80. The action appears to have given general satisfaction.

There is much talk of better health care from both Federal and Provincial Governments. This is no doubt caused by the fact that the people are becoming care of the health-conscious. They are beginning to realize that like education it is a social responsibility and no illness, pain or suffering of any kind should be permitted if it can be avoided by the knowledge we have in this present age. The more people therefore who bestir themselves on this important subject and express their opinion in no uncertain voice, the more likely are the Governments in question to put forward a comprehensive scheme for the care of the health in its many varied forms.

The following resolution was passed at the last Municipal District Convention, being introduced by the Wainwright Council.

"Whereas one of the great responsibilities of a Rural Municipal Council is the care of the indigent sick; and

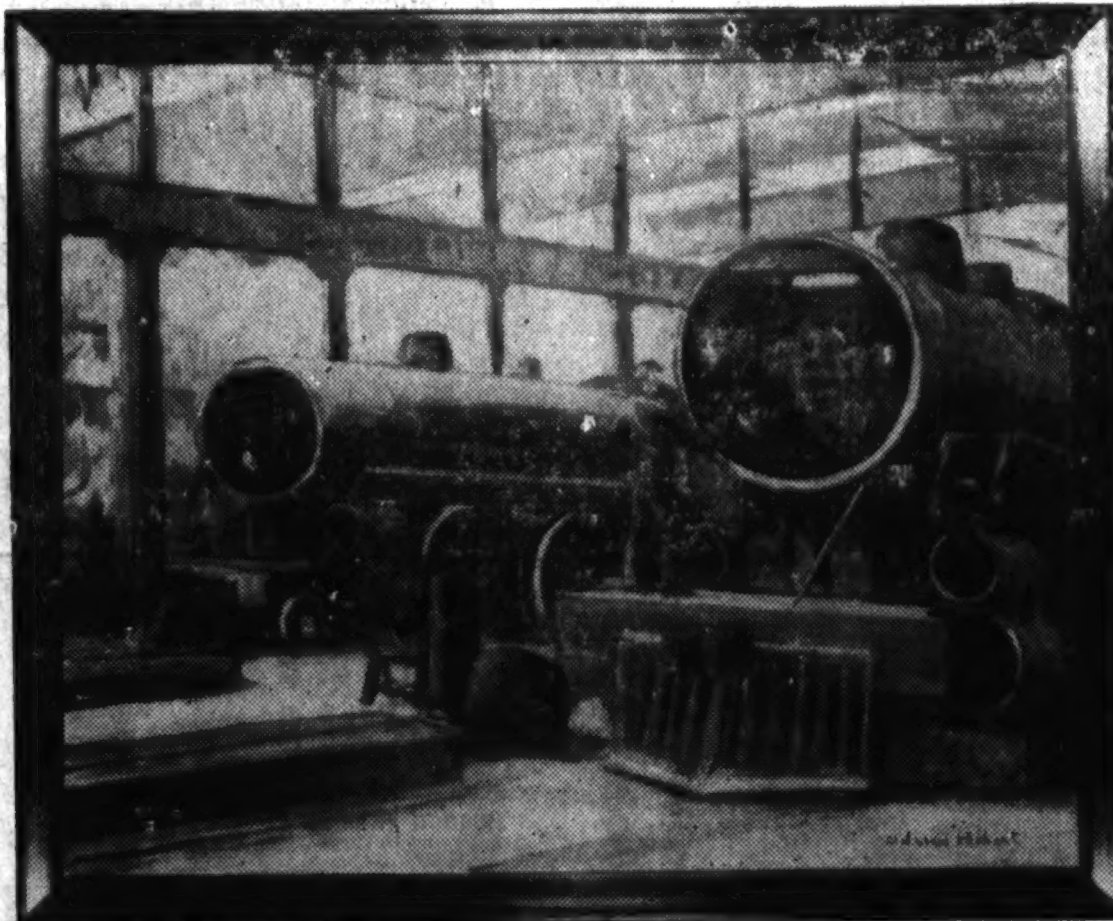

Whereas much ill health could be avoided if proper organized care was taken.

Therefore, be it Resolved that this Convention request the Provincial Government to give every consideration to the principles of the Marsh Report and to co-operate fully in any constructive plan (in the matter of public health) advance by the Federal Government.

WAS T.C.A. STEWARDESS

Nursing Sister Edna Louise Belden, Royal Canadian Navy, now overseas, how has been decorated an Associate of the Royal Red Cross, was a Trans-Canada Air Lines stewardess before her enlistment. She appeared in the King's Honor List in recognition of bravery and efficient work when a fire broke out in an army hut in Newfoundland where she was stationed.

C.P.R. LOCOMOTIVES IN ART

The tempo of wartime activity in a great railway shop and ocean liners sailing peacefully over calm waters present an interesting study in contrasts at an exhibit of oil paintings by Adrien Hebert, R.C.A., now on display in the Osborne street entrance show cases of the Canadian Pacific Railway's Windsor station at Montreal.

These subjects, rarely associated with the realm of art, have been given effective and interesting treatment by Mr. Hebert. One of the more vital operations of the shop men in wartime—the overhauling of hard-working loco-

motives—has been forcefully portrayed in two of the paintings, one of which is shown in the accompanying illustration while the shops' flaming forges with their attending blacksmiths hard at work, inspired the theme of two others.

Other features of the exhibit include colorful portrayals of Canadian Pacific liners shown peacefully at anchor in Montreal Harbor or sailing sufficiently close to port to show an effective background of smaller ships or landscape.

Born in Paris, of Canadian parentage, Mr. Hebert began his

career at an early age. A fellow of the Royal Society of Arts and Manufactures of London, he has exhibited at the Spring Exhibition in Montreal and at the Royal Canadian Academy, having been elected an academician in 1941. One of his pictures was acquired by the Havre Museum, and another by the Musée de Nîmes, during a Paris exhibition of his works.

Mr. Hebert has other pictures in Le Musée de la Province de Québec, one belonging to the Art Association of Montreal, one in the National Gallery at Ottawa, and others in private collections.

MUFFINS MAKE THE MEAL

MAGIC APPLE MUFFINS
2 cups sifted flour
3 eggs, well beaten
1 cup milk
1/2 cup sugar
1/2 cup oil
1/2 cup applesauce
Sift together dry ingredients; add eggs, milk, melted shortening and applesauce; mix all together quickly. Bake in well-greased muffin pans in hot oven (400°F.) about 20 minutes. Makes 12 muffins.

IN AND DISTRICT

BORN—To Mr. and Mrs. C. Opheim of Wainwright, at the Wainwright municipal hospital, on February 23rd, a girl.

BORN—To Mr. and Mrs. J. Pollard, of Fabyan, at the Wainwright municipal hospital, on February 24th, a boy.

BORN—To Mr. and Mrs. M. Byers, of Edgerton, at the Wainwright municipal hospital, on February 25th, a boy.

BORN—To Mr. and Mrs. A. Taylor, of Fabyan, at the Wainwright municipal hospital, on February 26th, a boy.

We are sorry to know that Mr. H. A. Koch is a hospital patient in the city suffering from an attack of appendicitis. He was taken up on Monday.

Old-timers will regret to learn of the death of Mr. J.M. (Max) Strange who was in business here in the early days.

Quite a hauling job was accomplished by Stan Valleau last week when he practically "walked away" with the big new truck garage built by Albert Rattray. A couple of tractors did the pulling.

Phil. Pon has now returned from a visit to the coast.

After a month's stay in hospital, Mr. Jack Patterson left last week end to recuperate for some time at the coast.

APCO NEWS

A summary of the
Day's News Highlights
DAILY at TEN P.M.

Following a business trip to the east, Mr. and Mrs. Carman Coleman returned home on Thursday last.

Mr. Fred Roberts was a business tripper to the city on Monday last.

Mr. and Mrs. Jimmy Der, who were holidaying in Regina with friends returned home on Monday.

Mrs. J. Welch has returned home from the hospital feeling better in health.

Mr. and Mrs. J. Robinson motor-ed over to Hardisty on business last week.

Mrs. Mary Ganderton made a business trip to the city on Saturday last.

Town Secretary was a business visitor to Edmonton on Monday last.

Owing no doubt to the very variable weather, colds and 'flu are still afflicting quite a number of our residents.

Having enjoyed a holiday with relatives in Winnipeg for the past few weeks, Mrs. C.T. Lally has now returned home.

Mrs. Louise Stott left on Sunday for a visit to friends at Dawson Creek, B.C.

Miss Elaine Harley is here from Edmonton to stay with her parents while convalescing from an attack of scarlet fever.

We learn that Jack Egbert, of the local B.A. distribution station, has been promoted to a position in the city and will be leaving here next week. His family will follow later.

Several matters of importance to our town and district will be on the agenda at the Board of Trade monthly dinner at the hotel cafe this (Wed.) evening, and everyone who possibly can attend should do so. Dinner at 7 p.m.

Miss Doris Peacock and Bessie Sheridan were over to Vermilion for a visit on Thursday last.

Bill Bolduc was a business tripper to the city last week end.

After his return from a business trip to Regina, Bob Leggett spent a few days in Edmonton at the week end.

Sympathies are expressed to Mrs. L. W. Smith, who unfortunately had a bad fall at the skating rink last week end and suffered cuts on her head.

Mr. Geo. Glass was a visitor to town over the week end.

Steve Shaban left last week for Edson, where he will engage in the trucking business.

Mrs. G. Reinhart, mother of Mrs. E. Devignon, who has been visiting her daughter here for some weeks, left for her home in Chauvin on Wednesday.

George Try is home on sick leave from his naval service in the east.

Mrs. Ray Greer and Mrs. Creighton are spending a few days in Edmonton this week.

The painters were busy at the Bank of Montreal over the week end.

Mr. Chas. Lowe, north of Heath, was rushed to the Wainwright hospital on Sunday, suffering from an attack of pneumonia. Mrs. Lowe and baby daughter are staying with Mrs. Fred Lowe in town during Charley's sickness.

Mr. Frank Flanagan is here on leave from his K. of C. service duties in the west.

Marshal Patterson is in town on a two weeks leave from his army duties. He is managing the store during his dad's convalescence at the coast.

Be sure and attend the Elk's bingo party on Thursday next week in the I.O.O.F. hall for an enjoyable evening's entertainment.

Mr. C. Oseroff, of Edmonton, who is well-known in this district, is to be the preacher at St. Andrew's (Pres.) church on Sunday next.

Leonard McDonald left for the east on Sunday last to commence naval duties.

G.C. Welsh, high school teacher at Edgerton, has been promoted from second lieutenant to lieutenant in the Cadet Services of Canada, headquarters of Military District No. 13 at Calgary announced recently.

Lieut. Welsh is instructor of the Edgerton Corps of the Royal Canadian Army Cadets.

COMING EVENTS

Mrs. Geo. Glass and her Wainwright orchestra are arranging to hold a dance to be held in the Separate School Hall on Wednesday, March 8th. Admission .50. Everyone is invited, and the proceeds are to be all devoted to the Canadian Legion for their Hostess House fund. (8-3)
